

Maserati Gransport MC Victory

Specifications

Brand	Maserati
Model	Gransport MC Victory
Year	2006
Mileage	91,311 km
Engine	8 cil.
Color	Argento Luna
Price	Price on request

Dutch delivered Maserati Gransport MC Victory from second owner in fantastic condition. Always dealer maintained, Driessen Maserati from Eindhoven.

This is number 167 of the only 180 Gransport MC Victory built.

Comes from a Maserati cMaserati GranSport MC-Victory.

One of the rarest of rares: MC-Victory, number 167 of 180, performed in Argento Luna! Especially the paint color makes it even more unique than it already is, since most MCs are in blue or white.

Although the 'standard' GranSport is already imbued with trident racing genes, the MC-Victory adds a good dash of 'racing spirit'! At the beginning of 2006, after winning the 2005 FIA GT Championship, Maserati proudly introduced the limited MC-Victory version in honor of this victory. In addition to a decent amount of carbon and alcantara, the MC-Victory is equipped with the carbon bucket seats from the renowned MC12, a unique carbon splitter, a carbon rear spoiler, a proudly placed tricolore badge on the front wings and a revised front suspension for an even more direct steering behaviour. To our delight, number 167 is in superb condition.

This MC Victory is perfectly maintained and equipped with full documentation. The last service was performed in 2021 at 91,800 km. The car is completely damage-free, only the nose has been sprayed once due to some stone chips.
